The Central Group on Educational Affairs (CGEA) of the Association of American Medical Colleges (AAMC) is a regional organization of thirty-seven (37) medical schools. The purpose of the CGEA is to encourage and facilitate communication among members and to provide a forum for discussion of medical education matters

Advanced Research Skills

The Department of Biomedical and Health Informatics at the UMKC School of Medicine <http://www.med.umkc.edu/dbhi/index.shtml> offers an array of opportunities for faculty interested in advancing their research skills.

Master of Science in Bioinformatics with Clinical Research, Genomics, or Computational areas or emphasis. (36 credit hours with research thesis or capstone project) <http://www.med.umkc.edu/msb/default.shtml>

Graduate Certificate in Clinical Research (15 credit hours); a valuable credential for health care professionals who want to advance their research career, but who are unable to devote the requisite time to a full master degree program.

Core graduate level courses applicable to biological research, clinical and population health research, and research to develop innovative information systems. <http://www.med.umkc.edu/dbhi/index.shtml>
