The purpose of this table is for curriculum advising and planning. All curriculum decisions are made by the associate dean for Council on Curriculum.

(All students are required to participate in Continuing Care Clinic for one half day per week beginning in September of Year 3. The only exception to this is during Vacation months, Preceptorship, and out-of-town electives. Yr 4 students may not miss more than two blocks of Continuing Care Clinic per year. Yr 5/6 students may not miss more than 4 blocks of Continuing Care Clinic per year.)

*The guidelines offer recommendations for the year level in which a student may schedule a required course or rotation. The student needs to be aware however, that as long as prerequisites are met, the student may take that course or rotation before he/she is formally promoted to the year in which the course is recommended.

**Courses include: HSF IV, Medical Microbiology, Neurosciences, Pathology I, Pathology II

***Courses include: HSF IV, Medical Microbiology, Neurosciences, Pathology I, Pathology II, CPM I & II

+Courses include: Pharm 9408, Year 4 DORO, Family Medicine I, Behavioral Sciences

Successful completion is defined by a passing grade in the course as defined by the course syllabus or Council on Evaluation.
