

## Tutor Network Spring 2021

**Here's how it works:** This is a list of students who have agreed to tutor classmates as the need arises. The student will initiate contact with the tutor, and they would set schedules accordingly. We recommend meeting in a public place, and charges for tutoring services should be kept in the \$10-\$20 range. The School of Medicine is not responsible for performance of tutors or what they charge.

Students and tutors may agree to meet virtually or in person. If meeting in person, all parties MUST strictly adhere to current policy for COVID safety requirements. This includes properly wearing a face mask at all times, social distancing and limiting number of people gathered.

*Remember the **Math & Science Tutoring (MaST)** services, too!*

They provide free tutoring for UMKC students for Chemistry 211 & 212;  
Anatomy (LS-Anatomy 119), General Bio 108 & 109; Genetics 206; Cell Bio  
202

Check them out at:

*If you're interested in being added to this Tutor Network list, you must have  
performed well in the courses (grade of A) for which you wish to be listed and  
meet minimum requirements (minimum of 3.0 in all science classes.)*
